About Ruben Garcia and Annunciation House

In 1976, Ruben Garcia and small group of volunteers in El Paso, gathered to consider how to live the gospel more deeply. That launched the journey that became Annunciation House. That small group responded to the call to not only serve the poor, but also to live in solidarity with the poor. Today, that commitment to live the gospel is still their guiding light.

Please join us as we consider the call of the gospel visible in the immigrants arriving by the thousands at the border. We are in a relationship with one another and all of the children of God. How do we welcome the stranger and assist them on their way?
